

## ORVED VACUUM MACHINES

- The ORVED Company was founded in Verona, north Italy, in 1984 and it is today considered to be the leading Italian company for vacuum pack machines.
- Orved manufactures the widest range of vacuum packing machines compared to its competitors, but BCE has only selected the most representative ones for its catalogue.
- The company is also involved in many technical projects which involve all sort of vacuum applications.
- Orved also produces the consumable materials (vacuum pouches) which are needed when using a vacuum pack machine.
- Orved carries out live demonstrations of its machines' technology (particularly the vacuum cooking technology) during the most important exhibitions throughout the world.
- A very modern and dedicated spare parts area is available for the use of all our distributors. It allows them to trace any Orved existing machines and their specific spare parts.

### OUT OF CHAMBER VACUUM MACHINE

With unique patented probe system allowing for any bag to be used with no special folding of bag required. Suitable for use with dry product only. For small volume applications

#### SPECIFICATIONS - VM98

SEALING BAR:	420mm
VOLTAGE:	230V
POWER:	1kW
DIMENSIONS:	490 X 415 X 195mm
WEIGHT:	20kg - VACUUM PUMP SELF - LUBRICATING

#### ORDER CODE:

VPM0098 • VACUUM PACK MACHINE - VM98 ORVED

**PLEASE NOTE:** To be used with dry product only

### MULTIPLE VACUUM PACK MACHINE

#### FEATURES:

- Compact and Ergonomic
- Complete with vacuum sensor
- Ease of use and high versatility
- Vacuum both In-Chamber and Out-of-Chamber
- Stain resistant
- 2 vacuum levels
- 4 sealing times
- Pump dehumidifier cycle
- Insufficient vacuum alert
- Sound and Visual alarm alert

#### SPECIFICATIONS:

DIMENSIONS:	495 x 600 x 288mm
CHAMBER SIZE:	355 x 365 x 184mm
BASIN VOLUME:	17.10lt
VOLTAGE:	230 V - 50/60Hz
MAX. POWER ABSORPTION:	350 VA
VACUUM PUMP:	8MC/H
FINAL PRESSURE:	2 MBAR
SEALING BEAM:	306mm
WEIGHT [NETT]:	29kg

#### ORDER CODE:

VPM0030 • VACUUM PACK MACHINE - EVOX 30
